

## Let's be take away detectives!

How many socks do I have now?

## Notes for parents or teachers

Find one pair of socks for everyone in your house.

How many socks have you got altogether? Ask the child to write that number.

Hide your own socks. How many have you got now? Try and write that number.

How many socks will you have if you use two pairs of your socks and one of everyone else's?

Practice writing that number.

Put all the socks in a row.

Ask someone to hide some of the socks. How many do you have left?

How many do you think they have hidden?
