

## Class Six Homework: Friday 4<sup>th</sup> April 2025

### Spellings – Danger Words List 3

You have a set of danger words which are linked to the test we did at the start of the week. This set of words contains a pattern you need to learn. You need to learn the words on the list and see if you can find any other words which also follow this pattern.

### Calculations – The Four Operations

Following on from our Maths work and our SATS practice, you have 20 calculations below to solve. You can do these on a sheet of paper. We will be marking them in class on **Tuesday 22<sup>nd</sup> April**. We have been using these methods in our maths work, and this task is designed to help you keep the methods fresh in your mind!

If you need help, or a quick confidence boost, there is a video I made in home learning on the Video Resource Centre which outlines the methods you need to use, and shows you how to lay out your calculations.
