

## 6a Song Creation:

Date: \_\_\_\_\_

Name: \_\_\_\_\_

There are 2 parts to this challenge.

You have the instruments, now you need a song to play!

Your penultimate (second to last) challenge is to create a short song that we could use as our very own Class 3 theme tune. You will need to write the lyrics **and** create the rhythm for the backing music. Your song must be at least 30 seconds long, but no longer than 90 seconds.

In order to fit the brief (and be a potential Class 3 theme tune), your song must be focused on our school and, more specifically, Class 3! You can 'magpie' and use existing songs as inspiration for the rhythm, beat and tune of your new song, but the words must be your own!

The following are some ideas that you may wish to explore when writing your lyrics:

- subjects, topics or books that we have looked at
- different clubs and opportunities you have had
- the people (what are they like? Friendly? Helpful? Kind?)
- any phrases/greetings we use

You can write your lyrics on the attached lined sheet, or in your lined exercise book. It may take time because you will probably have to play around with the words, rhymes and rhythms to make sure you get the best fit possible. Don't forget to give your song a catchy name!

You may wish to start by finding a rhythm you like and then writing the lines of your song to fit this **OR** you may want to write your lyrics first and create a rhythm to match. The choice is yours!

## 6b Performance:

Date: \_\_\_\_\_

The second part of this task can only be completed when you have created your song (make sure everyone knows what they are doing!) You need to practise your song as a group and, when you are ready, perform it. Don't forget to record or video the whole of your 'live' performance so that we can share and watch them at a later date!

When you have finished, please separately email the following to me:

- A copy of your Song Lyrics (with a song title).
- A 5 or 6 second clip of you performing your song, in costume, with instruments! If the clip is any longer than this, then it won't send as an email.

Hopefully I will be able to put these video clips together to showcase what you've all made! If all goes well, it will appear on our Class page on the website when the project is over!
