

Home-Learning w/c Monday 23/03/20

Spelling and Timestables = There will be weekly spelling and timestables assignments set on the Spelling and Maths shed platforms. Your access to other spelling lists will be limited until you have completed the required number of games (usually this will be 10).

Maths	Literacy
<p>1. Daily = Number of the Day – There is a Number of the Day prompt sheet in your home-learning pack. The children should be used to using this in class. Please answer each step in your 'Maths' book. These are the numbers for each day this week: Monday = 134, Tuesday = 253, Wednesday = 681, Thursday = 376, Friday = 522</p> <p>2. Make your own 100 Square – On the last page of your 'Maths' book, make your own 100 Square (a 10 x 10 grid). You will be able to use this to help you/play maths games with over the coming weeks!</p> <p>3. Column addition practice – Please answer the questions in the attached link (1 Column addition practice) using column addition. Each page gets progressively harder because you have more exchanging to do! The children have been taught this method but I will upload a worked example sheet as a prompt if needed! Children are able to use jottings (drawing out the HTOs) to help them but they should be trying to work these calculations out without them now. I will upload answer sheets by the start of next week for either you or the children to check their answers (and workings).</p>	<p>1. Daily = Expanded Noun Phrases – An expanded noun phrase is when you use 2 adjectives in front of a noun to describe it. We use a comma to separate the adjectives because we are listing them. e.g. a dog → a cute, fluffy dog The children should be used to doing this in class Please create 3 expanded noun phrases for each daily noun in the back of your lined exercise book. These are the nouns for each day this week: Monday = cat, Tuesday = dragon, Wednesday = cake, Thursday = garden, Friday = beach</p> <p>2. Daily = Reading – Please make sure you keep reading – at least 15 minutes a day There may be extra reading challenges each week to keep those 'Reading Detective' skills going!</p> <p>3. Twice weekly = Diary entry – Diaries can be a useful way of finding out about events that have happened in the past. A lot of the information that we know about the eruption of Mount Vesuvius in 79AD comes from a diary entry written by Pliny the Younger! Please keep a diary for the duration of the school closure. This only needs to be a few sentences/a short paragraph each time.</p> <p>4. Descriptive Writing – Write a paragraph or two describing the view outside your window (in your lined book). What can you see? What can you hear? What can you smell? What would it feel like? A few days after writing it, please read back through your writing and edit it to make it even better (adjectives and adverbs to describe, conjunctions/connective to join sentences, time phrases, etc)</p>

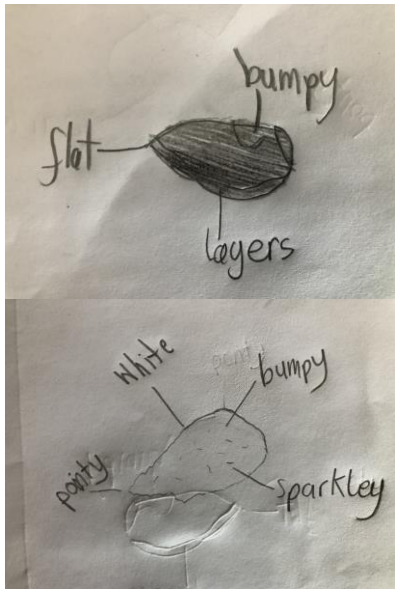

Science/Computing

1. Scientific rock drawings –

Our current unit of learning in Science is 'Rocks'. As part of this, we have begun to explore the properties of different types of rocks and the skill of scientific drawing.

Your challenge is to go out, find a selection of different rocks, and make a scientific drawing of each of them.

Your scientific drawing must have labels to describe the features you can spot – What can you see? What does it feel like? etc

Topic

1. Roman Army Formations –

During the last few weeks of term, we began to look at the different formations used by the Roman army.

Please research some of these formations and create a poster to show these! There must be a mix of picture/sketches and writing.

Please do your own research but here are some useful videos to get you started:

<https://www.bbc.co.uk/bitesize/clips/zv98q6f>

<https://www.bbc.co.uk/bitesize/clips/zsmxpv4>

There is also a useful factfile page about the Roman Army and its formations on Espresso.

https://central.espresso.co.uk/espresso/primary_uk/subject/module/factfile/item1060524/grade2/module991656/index.html

There are photos from our class army formations on the website that you can have a look at to help too!
