

Ancient Egyptian 3D Coffin Template

The coffin base and lid

1. Cut along the **solid lines** only
2. Fold along the **dotted lines** to make a crease, keeping the markings on the inside.
3. Glue the **grey tabs** to the joining face.

Make your own Ancient Egyptian 3D Coffin

Decoration

The outside of the coffin was elaborately decorated.

The head was painted to look like the person, the arms crossed and jewellery round their neck. Patterns and hieroglyphics, or even pictures, covered the legs.

The inside would also be painted, underneath where the body lay.
